

PRAVEEN KUMAR V

FULL STACK DEVELOPER

Bengaluru, Karnataka, India | praveenvilliers@gmail.com | github.com/PraveenKumarAmaze28 |
praveenkumaramaze28.github.io/praveen-portfolio/

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience developing and maintaining enterprise web applications across frontend, backend and database layers. Strong hands-on experience with Angular, TypeScript, JavaScript, NestJS, .NET, ASP.NET Web API, REST APIs and Microsoft SQL Server. Experienced in HRMS, payroll, attendance, overtime, leave, loan management and employee self-service applications, including complex business rules, API security, data encryption, reporting and database-driven processing. Also experienced with Git, GitHub, Playwright and AI prompt engineering.

CORE TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3, Reactive Forms, Responsive Web Development

Backend: NestJS, Node.js, .NET, ASP.NET Web API, REST APIs

Database: Microsoft SQL Server, SQL, Database Design, Stored Procedures, Functions, Query Development

Security: API Security, AES Encryption, Role-Based Route Protection, Secure Data Handling

Testing & Tools: Playwright, Git, GitHub

AI: Prompt Engineering, Google Prompting Essentials

Business Domains: HRMS, Payroll, Attendance, Overtime, Leave/LWOP, Loan Management, Employee Self-Service, E-commerce

PROFESSIONAL EXPERIENCE

Amaze Inc — Senior Software Developer

Jan 2024 – Present | Bengaluru, Karnataka, India

- Develop and maintain enterprise business applications across frontend, backend and database layers.
- Build scalable frontend functionality using Angular and TypeScript and integrate REST APIs with backend services.
- Develop backend services and business logic using NestJS, .NET and ASP.NET Web API.
- Design and maintain SQL Server solutions supporting payroll, HRMS and employee-management workflows.
- Implement complex payroll and attendance rules including overtime, night differential, holiday pay, LWOP, rest days and employee-specific processing.
- Work on multi-subsidary payroll platforms using cost centers, pay groups and consolidated employee reporting.
- Implement application security features including role-based route protection, API security and encrypted data handling.
- Troubleshoot production issues and investigate data mismatches across UI, APIs and SQL Server.

Amaze Inc — Junior Software Engineer

Jan 2023 – Jan 2024 | Bengaluru, Karnataka, India

- Contributed to application development, backend services and database-related tasks for enterprise business applications.
- Developed and enhanced .NET-based backend functionality and REST API integrations.
- Created and maintained SQL Server queries and database logic supporting HRMS and payroll processes.
- Worked on employee self-service, payroll processing, overtime, leave and loan-related functionality.

Amaze Inc — Software Developer - Trainee

Jan 2021 – Jan 2023 | India

- Started software development career by contributing to enterprise application development and maintenance.
- Worked with .NET and SQL Server while building foundational backend and database development skills.
- Contributed to business application features, enhancements and issue resolution.

SELECTED PROJECTS

QuadX

Overtime & Payroll Software | Sep 2024 – Jan 2025

Multi-subsidary payroll platform built around cost centers and pay groups with a unified payroll engine and consolidated reporting.

Key features: Payroll processing by cost center and pay group; unified employee reporting; dynamic reactive forms; role-based route protection.

Technologies: Angular, ASP.NET Web API, SQL Server, REST APIs

PlayMate

Overtime & Payroll Software | Mar 2024 – Sep 2024

Multi-subsidary payroll platform supporting five companies through a unified payroll engine with consolidated payroll and employee reporting.

Key features: Multi-subsidary payroll; cost center and pay group processing; unified employee reporting; reactive forms; role-based route protection.

Technologies: Angular, ASP.NET Web API, SQL Server, REST APIs

Shroff Travels

HRMS & Payroll Software | Jan 2024 – Mar 2024

Secure HRMS and payroll platform supporting complex overtime, night differential, holiday pay, taxation, statutory deductions and final settlements.

Key features: Night differential and overtime; holiday pay; bi-weekly payroll; annualized tax computation; AES data encryption; certificate generation integration.

Technologies: Angular, ASP.NET Web API, SQL Server, REST APIs, AES Encryption

AC Loans

HRMS & Payroll Software | Apr 2023 – Sep 2023

Philippine labor-law-compliant HRMS and payroll platform with integrated loan management, payroll processing and employee self-service.

Key features: Overtime and LWOP; government deductions; 13th month and final pay; loan amortization; EMI and interest calculations; employee self-service portal.

Technologies: Angular, ASP.NET Web API, SQL Server, REST APIs, Data Encryption

ALI HRIMS

HRMS & Payroll Software | Sep 2022 – Apr 2023

Philippine labor-law-compliant HRMS and payroll system covering overtime, LWOP, government deductions, loans and employee self-service.

Key features: Holiday and rest day overtime; LWOP calculations; government deductions; loan approval workflow; dynamic amortization; employee self-service.

Technologies: Angular, ASP.NET Web API, SQL Server, API Security, Data Encryption

Astalakshmi Gold

E-commerce Platform | Sep 2021 – Feb 2022

E-commerce platform for purchasing gold and silver products with real-time metal pricing, product comparison, wishlists and secure payments.

Key features: Real-time metal prices; product comparison; wishlist; secure payments; invoice generation; order tracking.

Technologies: Angular, Node.js, ASP.NET, SQL, MongoDB

EDUCATION

B.E. — Bachelor of Engineering, Computer Science

Cambridge Institute of Technology | Jul 2016 – Sep 2020 | Computer Science Engineering

2nd PUC, Computer Science

Basaveshwara College of Arts, Science and Commerce | Jun 2014 – Jun 2016 | First Class

10th, State Board

Morning Star English School | Apr 2002 – Apr 2014 | First Class

CERTIFICATION

Google Prompting Essentials — Google | 2026

Training in prompt engineering techniques including structured prompting, prompt refinement, iterative prompting, prompt chaining and effective AI interaction.

ADDITIONAL INFORMATION

5+ years of professional experience | 20+ projects completed | Enterprise application experience
